15. Multidisciplinary / interdisciplinary

The State of Bihar has implemented NEP - 2020 from the academic session 2023-24. Our college has also implemented the NEP which offers a multidisciplinary flexible curriculum that enables multiple entry and exits. Since the NEP aims at promoting the exclusive potential of students through a holistic multidisciplinary or interdisciplinary mode of education, our college is also well equipped to implement NEP regulations in its curriculum. Apart from the regular courses, efforts are also being made to incorporate more certificate courses and add on courses which can be offered to the students which can nourish their career prospects. The provision for the same would be implemented according to the directives of the state government. On implementation, the teaching learning pedagogy has adopted amalgamation of intellectual, scientific, emotional, social and cultural development among its students.

16. Academic bank of credits (ABC):

The State of Bihar has implemented NEP - 2020 from the academic session 2023-24. As per the instructions and guidelines for adoption of NEP in the curriculum, our college, under the ABC, would permit its learners to avail the benefit of multiple entries and exit during the chosen programme, and to enable credit transfer. Undoubtedly, the initiative would be highly beneficial to the slow learners and provide flexibility to students to learn as per their ability and convenience. The proviso for the same has been implemented as per the directives of the state government and University. Accordingly, in the coming years, the college would also like to have MoUs with other institutions for collaborative ventures towards internationalization of education and joint degrees between Indian and foreign institutions. Active engagement of the faculty is being ensured in designing their own curricular and pedagogical approaches within the approved framework through Learning Management System. The students are being encouraged to enroll and successfully complete the courses through online platforms which will enrich their learning experience.

17.Skill development:

The endeavour of the college has always been to offer opportunities for students to develop their skills in tandem with changing needs. As result, efforts are being done to incorporate more Add-on courses which would align the curriculum with relevant industries to make them job ready by the time they graduate. Being the college situated in the extremely rural outskirts of the state, within the constraints, students' skills will be further augmented by frequent interactions with available industry experts and other resources available in the area. However, it would be pertinent to mention that, the college follows the State and University guidelines in the functioning of the college.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

It has always been an endeavour of our college to uphold the value of Indian Knowledge system, Indian culture and heritage. The college commemorates the national days such as Hindi Divas, Mother tongue day, Tourism Day, Independence Day, Republic Day, Shikshak Divas, Yoga Day, etc., as an act of reverence towards Indian languages and culture. Faculty members are free to provide the classroom delivery in bilingual mode as students tend to understand better if taught in their mother tongue. The graduate students are to study the Hindi language compulsorily during the first two years of the bachelor's program. The promotion of Indian languages are also facilitated through Bachelor Honours in Maithili, Urdu and Sanskrit. In order to stay connected with the rich Indian culture and heritage, the students are encouraged to participate in various competitions such as essay writing, poetry, speech competition, folk song, folk dance and skit etc. at various levels.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

The Learning Outcome Curriculum Framework syllabi has been prepared as per the directions of the University with the final outcome expected of students of a particular course at the end of the programme. The outcomes has been delineated clearly, and the teaching plans outlined accordingly. This has enhanced the quality of education imparted to them and helped to align pedagogy to the desired outcomes. Presently, the Outcome of the courses being provided by the college is limited to Critical Thinking, Effective Communication, Effective Citizenship, Environment and Sustainability, Ethical Living, Social Interaction, Problem Solving and Analytical Skills etc., which are being taught in the classrooms by the teacher through the present curriculum.

20.Distance education/online education:

Our College offers courses in the regular mode only as sanctioned by UGC. Online tools and blending learning are used to augment and enhance pedagogy. Online classes and Open Book Exams were held as per directives of the University only during the lockdown necessitated by the pandemic. Since this was felt much effective for delivering additional support to students to clear their doubts off the normal class hours, the same is being continued till now, wherever feasible. However, efforts will be made to incorporate more Courses offered by other National Open Universities in the near future.

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

The College follows the practice of decentralisation in its true sense, in all the three important pillars of the institution, viz. academics, administration and extra curricular activities. The practice of decentralisation and participatory management is reflected in all the activities of the College through a strong and efficient Organogram of Committees/Societies which includes the IQAC, the Staff Council, Student Council and various Cultural Societies. All the major stakeholders of the College including the

Principal, Teaching and Non-Teaching Staff, Parents and Students work in a democratic way of governance following the tacit rules of accountability in execution of their duties and responsibilities.

The primary objective of decentralisation with regard to this particular cultural event is to reorient organisational culture, thin out the official hierarchy, extend opportunities for teachers as well as students to contribute profoundly, enrich the decision-making process, and nurture greater democratic professionalism, together with proficient event management. Decentralisation of administration in Montage refers primarily to a process, in which students are given a free hand to take decisions about the judicious use of resources, financial management, execution of programmes, security arrangements, and so on. This sort of decentralisation allows the students to be more responsible, responsive, sensitive and proactive to exercise their own discretion for planning and execution in a participatory and democratic environment.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

It has been one of the primary concerns of IQAC to adopt practices, which will provide quality education to the students through an effective and meaningful teaching learning process. This plays an instrumental role in enhancing the quality of the academic and cocurricular endeavours of the College in keeping with its vision and mission.

IQAC achieves this through mainly two practices, viz.,

1. Conducting Academic Audits annually wherein departments are made to do a SWOC Analysis of their performance based on results,

research projects, effective curriculum implementation and use of ICT-related pedagogical methodologies. Based on the audit, the IQAC gives constructive feedback to the Departments suggesting measures for internal quality enhancement. It makes recommendations for the Departments to do self-evaluation and to set higher goals to meet new challenges.

2. Collecting feedback from stakeholders like students, parents, staff and alumni to facilitate teaching-learning reforms. This helps in obtaining an unbiased and honest opinion about the institutional performance especially in academics. Student feedback of teachers is conducted regularly. A careful analysis of the feedback received is done and communicated to the teachers to enable them to enhance their teaching skills and their relationship with the students.

Based on the information received due to implementation of the above two practices, IQAC, post accreditation, has been able to develop a system for conscious, consistent and catalytic action to bring about reforms in teaching-learning process, structure, methodologies and learning outcomes.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Best Practice - 1

The Title of the Practice- Solid Waste Management

Goal : This practice aims to create awareness among general public on the importance of effective solid waste management through promoting private sector participation and encouraging reuse of nonbiodegradable wastes.

The Context : Main effort was taken to create an awareness on the issue to prevent adverse impacts on man and other living organisms. Students and staff collected the plastics and other e-wastes from the college campus and houses and handed over it to various agencies for recycling.

Evidence of Success : The school management and the teachers have reported they have advised the student community to deposit their food waste into the bio-bins and waste food management was thus effectively carried out in especially those schools where space is a limiting factor. The plastic and e-wastes that are quite difficult to be managed were collected and distributed to agencies that deal with e-waste management.

Problems Encountered and Resources required : Though a major share of people were interested in effective solid waste management, there

are some who neglect the aftermath of inefficient management practices. Hence, creating awareness to those people was a challenge. The residents of apartments were confused as to how the compost can be used as they have no space to carry out organic farming. Though the initiative is a just a beginning, it can bring in remarkable changes especially in an urban locality.
